KOLKATA PORT TRUST

Dated:- 18.04.2018.

No. Mm/4E/140

TRADE CIRCULAR

In order to optimize utilization of Sagar Anchorage for lighterage/ topping up operation, it has been decided to increase dimension of vessels from existing 240m x 35m to 253m x 43m (Baby Cape size). Such Baby Cape vessels will be acceptable only during Neap tides with range of tide not exceeding 3.1m. However, once the vessel is called at Sagar, she will be allowed to complete unloading, even if the range of tide exceeds 3.1m.
