1.	The layout was revised on 14th Jan 2021 with a different operational philosophy than earlier planned. This operation philosophy is also different from the EOI we had earlier submitted which was basis double spur model. We have carried out our feasibility study basis double spur for larger land parcel which now needs significant revision and study basis the new details. To ensure a fair bidding process is met, we have to revise our study significantly without which feasibility cannot be completely determined. This is even more difficult with the constraints in travelling for our Mumbai-based Project team due to Covid-19 precautions we have been advised, a point which we hope the Port will appreciate.	Matter has been reviewed. Request has been considered by the Competent Authority of HDC/SMP, Kolkata. In this regard, please refer to the Corrigendum/ Addendum- VI.
	We reiterate our request for extension of date (atleast till 15th Mar 2021). In absence of such an extension, we shall not be in a position to provide you with the bid. We once again hope the Port will appreciate the above points as this is a very high value project and requires a detailed deliberation when such changes are made.	
2.	We request you to kindly reconsider the last date of closing of online e-tender vide Tender No: AD/E/T/Land /Railway Siding/LPG/2020 for submission of RFQ as further developments and evaluation on our part is under process and grant an extension of 12 days from the present closure date of submission of RFQ.
